

What is the Desktop for Sage200?

The Desktop for Sage 200 is a secure hosted desktop platform created to deliver Sage to any business. It enables rapid, professional and reliable deployment of Sage 200cloud accounting software for all Sage customers and is the first and only Sage Platinum approved desktop. It's the perfect solution for businesses who want Sage 200cloud to work harder or are looking to grow or streamline.

The Desktop supports remote working to aid agility, productivity and efficiency. This ensures that you're always on and deliver services to customers faster. It also comes with full back-up and recovery should data be corrupted and is hosted from three UK data centres for complete peace of mind. The desktop is easy to use and manage and additional productivity tools can be added, further enhancing its effectiveness.

What are the features and benefits?

- Affordable and easy to manage
- No CAPEX spend or hidden microtransactions
- Backed up and hosted from three UK ISO 27001 datacentres for peace of mind
